SUBJECT: Implementation of Portal and Loan Underwriting System (PLUS) by
Offices of Multifamily Housing Programs and Office of Healthcare
Programs

Pursuant to Article 49 and Section 49.04(1)(2) of the HUD/AFGE Collective Bargaining Agreement (the Agreement), this memorandum serves as official notice that the Office of Multifamily Housing Programs (MFH) and Office of Healthcare Programs (OHP) intend to replace the legacy internal Development Application Processing (DAP) system with a new system, Portal and Loan Underwriting System (PLUS).

DAP is 25 years old and no longer meets MFH's and OHP's business needs. PLUS will provide MFH and OHP with a modern, cloud-based system for FHA loan production and a new lender portal for FHA customers. Please see the attached PLUS overview for a summary of planned system functionalities.

Management intends to develop and implement PLUS in phases. Phase 1, the internal DAP replacement and Minimum Viable Product (MVP), is planned for release to MFH and OHP users no earlier than October 2024. Phase 2 (lender portal, document management and other capabilities) will be developed in 2025. Subsequent phases may include interfaces with other HUD systems and other useful features for the MFH and OHP programs.

PLUS is expected to be used by all MFH and OHP Production staff, and management will provide training to all expected users prior to implementation. After migration from DAP to PLUS is complete and PLUS is successfully in use, the DAP system will be decommissioned. The attached overview outlines the various benefits of PLUS for MFH and OHP program staff.

Portal + Loan Underwriting System (PLUS)

HUD Offices of Multifamily Housing and Healthcare Programs

Overview for AFGE – August 2024

Purpose of PLUS

1. Replace the legacy internal DAP system with a modern system *(Phase 1+)*

DAP is 25 years old and no longer meets MFH's and OHP's business needs. PLUS will provide MFH and OHP with a customized, end-to-end solution for FHA loan production, including document management, enhanced reporting and data analytics, and interfaces with other HUD systems.

2. Provide a robust lender portal for FHA customers *(Phase 2+)*

PLUS will also be outward-facing, providing FHA lenders with tools to do business with FHA, including a lender portal, digitized applications, dashboards with real-time data, and communication tools.

PLUS will benefit HUD staff, improve the customer experience, increase transparency, streamline the application and closing processes, and improve FHA's overall performance.

Background and PLUS Project Plan

PLUS will build upon the work completed during the 2019-2020 AUSS Pilot.

A new, 5-year DME/O&M contract awarded in March 2023 (to Koniag Government Services) will help MFH and OHP operationalize the system, starting with the Minimum Viable Product (MVP)/Phase 1 (currently targeted for release in Fall 2024), and will provide O&M for the system.

Post-MVP, MFH will transition its current lender portal functionalities from the existing module in *FHA Catalyst* to a new and improved lender portal in PLUS, and the DAP system will eventually be decommissioned.
